KLM expands Economy Comfort to Cityhopper Europe flights

By **Rick Lundstrom** on November, 1 2013 | Inflight Entertainment

Following the successful launch of Economy Comfort on KLM Royal Dutch Airlines' intercontinental and 737 European fleets, Economy Comfort is now available on all of KLM Cityhopper's Embraer 190 and Fokker 70 aircraft in its European network, with the exception of flights between Amsterdam and Paris Charles de Gaulle.

With the introduction, KLM is offering its passengers more legroom, and faster disembarking since Economy Comfort with its location in the front of the cabin.

The sales and seating procedures for Economy Comfort on the KLM Cityhopper fleet are the same as they are on other KLM European flights. Seats in the Economy Comfort zone can be booked at any time before departure and prices start at **€**10 one-way depending on the duration of the flight.
