
IFE Services to supply content for TUIfly

By **Rick Lundstrom** on March, 15 2013 | Inflight Entertainment

IFE Services will be providing inflight entertainment for the charter carrier TUIfly Nordic, the company announced today.

The IFE package will include a selection of Hollywood and Scandinavian movies and popular TV shows as well as radio channels and music albums from a wide variety of artists. The entertainment offering, which will be available in English, Norwegian, Finnish, Swedish and Danish, will be shown on the embedded seat-back and overhead systems.

The IFE will be on TUIfly's fleet of 737s and 767s. IFE Services is also managing all of the airline's digital encoding and audio video on-demand (AVOD) file management requirements.

TUIfly Nordic is based in Stockholm. It operates holiday charter flights from airports in Denmark, Finland, Norway and Sweden to fly holidaymakers to destinations in the Canary Islands, Egypt, Greece, the Mediterranean and Thailand.
