# IMDC organizes wireless IFE training course in Asia

By **Maryann Simson** on December, 12 2012 | Inflight Entertainment

[IMDC](#), a leading independent consulting services provider, has held the first ever training course on wireless technologies. Organized in Hong Kong, the event specifically targeted Asian airlines and aimed to provide relevant and detailed information to those currently considering wireless solutions.

Sponsored by IFP, The Passenger Experience Provider™, and IFE solutions expert DTI Solutions, the two-day workshop attracted over 20 delegates from 9 airlines across Asia.

Training course topics included understanding wireless connectivity trends and exploring the opportunities and challenges of implementing wireless solutions on both narrow and wide-body aircraft.
