
China Southern Airlines chooses Recaro Aircraft Seating

By **PAX International** on August, 9 2019 | Seating

Recaro economy seating for China Southern Airlines

[China Southern Airlines](#) equipped its first of twenty A350-900 aircraft with a full cabin of [Recaro Aircraft Seating](#). It is also the first linefit program for the new CL6710 seat on an A350-900 aircraft.

Business Class features the new CL6710 seats in a staggered one-two-one configuration (this gives all passengers direct access to the aisles), while the Premium Economy and Economy class are fitted with Recaro's PL3530 and CL3710, respectively. The CL6710 seat can recline into a full flatbed, and its 18.5" monitor also provides gate-to-gate inflight entertainment.

The PL3530 seat provides Premium Economy passengers with ergonomic seating positions, and individually-adjustable calf rests. The CL3710 seat offers passengers in economy ergonomic comfort with a patented six-way headrest and neck support to provide comfort for short and tall passengers. It also includes inflight entertainment systems and USB outlets.
