A peek at the exterior (top) and contents (bottom) of the latest collaboration between CLIP and Hong Kong Airlines

[CLIP](#) has teamed up with [Hong Kong Airlines](#) and design house [Ricebowl Republic](#) for a new series of Business Class amenity kits inspired by iconic symbols of Hong Kong.

The four bags, made with thick cotton canvas and lined with bold-colored fabric, feature either a birdcage, teapot, rice bowl or the Hong Kong city skyline accompanied by amusing captions. Inside each bag passengers will find [l'Occitane](#) products, an eye mask, socks and earplug pillow pack, all designed with the same celebration of Hong Kong's culture in mind.

In a February 28 statement, Chris Birt, Hong Kong Airline's General Manager Service Delivery,

commented: "This is now the second year of collaboration with CLIP and Ricebowl Republic, and the first set of four designs were so popular with our Business Class customers I know they will love the new designs we have rolling out over the next 12 months."
