
Galileo Watermark develops overnight kits for Turkish Airlines

By **PAX International** on May, 10 2019 | Amenities & Comfort

The overnight kits, seen here for female passengers, contain Scaramouche + Fandango cosmetics

[Galileo Watermark](#) has announced the release of its latest tailor-made female and male overnight kits for [Turkish Airlines](#), the first collaboration between the two companies.

British brand Scaramouche + Fandango bath and cosmetics products, as well as additional personal and hygiene items, fill the printed microfiber bags. The bags bear the iconic Turkish Airlines branding and are designed to be reused as an iPad case or document holder following a passenger's flight.

The female kit contains essentials such as a t-shirt, underwear, eye mask, socks, personal care pack, comb, dental kit, shampoo, body lotion and deodorant. The male kit, on the other hand, includes a shaving kit and aftershave lotion instead of the body lotion and care pack.
