

Qatar Airways picks up FORMIA Clean Kit

FORMIA has announced that [Qatar Airways](#) has introduced its [Clean Kit](#) range as part of the airline's enhanced safety measures.

All passengers will receive a disposable face mask, large disposable powder-free gloves and an alcohol-based sanitizer gel.

Qatar Airways has named the bespoke offering the Protective Kit. FORMIA's airline customers have the option of tailoring the Clean Kit to meet passenger requirements. Furthermore, products are available as own-branded or in collaboration with a choice of brands through the supplier's partner portfolio.

The full Clean Kit range includes personal protective equipment (PPE) and sanitizer products which comply with international safety standards and regulations, to ensure passengers are protected throughout the journey. The kits are designed not only to offer peace of mind, but also practical solutions that put the health, safety, and well-being of Qatar Airways' passengers first.

Philipp Wendschuh, FORMIA's Chief Commercial Officer, said: "As we watch the world continue its recovery efforts, we at FORMIA are endeavoring to spearhead the road to change within the travel industry. We understand that the needs of airline passengers have changed, and so our focus is to deliver relevant and timely solutions that will answer those needs. We are pleased to now add Qatar Airways to the list of airline partners we are collaborating with to bring added value and quality, tailor-made solutions to passengers."
