# Turkish flies new Economy Class kits

By **PAX International** on May, 15 2019 | Amenities & Comfort

These amenity kits for [Turkish Airlines'](#) Economy Class, designed by [Bayart Innovations](#) have been inspired by motifs found in classical Turkish decorative arts. Available in six ornamental patterns, each bag contains an eye mask, slippers, a dental kit, a Human + Kind lip balm, earplugs, socks and an information card containing insights and history into the bags' designs.
