

Finnair meals now on Foodora menu

Taste of Finnair favorites debuted on Foodora May 3

Starting Monday, May 3, the hand-made meals from the [Finnair](#) kitchen in Vantaa were available in [Foodora](#) online food delivery service and in selected K stores.

"This new cooperation with Foodora online food service makes Taste of Finnair available for large number of new customers. When so many people are dreaming of future travel, we want to offer a small Finnair experience at home," says Marika Nieminen, Vice President Finnair Kitchen in a release from the airline.

Taste of Finnair meals are available in Foodora's webstore Foodora Market in the Helsinki area, and in selected K stores in Southern Finland. More information on the Taste of Finnair menus is available on [Finnair.com](#).

"Taste of Finnair was born from the desire to develop Finnair business and offer employment to our people during the COVID-19. I'm happy to say that we have managed to make it a permanent part of our operations. We will continue to develop both the products and the wider selection," says Nieminen.
