
LOT expands Flying Food Group business

By **Rick Lundstrom** on May, 31 2017 | Catering

Flying Food Group (FFG) has been chosen by LOT Polish Airlines to cater two new routes: Los Angeles-Warsaw (four times weekly) and Newark-Warsaw (five times weekly). Service at both locations launched in April.

In July, FFG will cater LOT's new service between Chicago and Krakow. Since 1989, FFG has exclusively catered LOT flights between Chicago and Warsaw, and between New York/JFK and Warsaw.

"It is affirming when an existing customer adds gates after having experienced our customer-focused service firsthand," said FFG Executive Vice President Airline Sales Nicolas Rondeau. Rondeau noted LOT has been a loyal FFG customer for nearly three decades.

FFG services more than 80 airlines — primarily international meal service — from its U.S. network of 22 units.
