
Innovative phone and tablet holder tray by Kaelis

By **PAX International** on June, 11 2019 | Cabin Equipment

[Kaelis](#) has released Bassú, an innovative phone and tablet holder tray.

Its unique design allows passengers to watch movies or television shows on their personal electronic devices hands-free while eating.

The light, ergonomic tray has a space where dining guests can dock their phone or tablet so that it doesn't take up too much space and isn't a hindrance.

Kaelis holds a patent on the product and can adapt the design, size and materials to the special needs of its customers.
