The selection of all-natural breads created by [Lantmännen Unibake](#) are GMO-free and can be customized to meet the unique demands of the airline industry. Some examples of how their products can be tailored to meet these needs include bulk orders, clear-wrapped rolls, low-profile sandwich rolls designed for the limited space on an aircraft, products that keep longer in an airplane environment and pre-sliced or price-sensitive options with the ability to stay fresh for three days post-thaw.
