
The Barista Cup - A coffee machine in a cup

By **PAX International** on March, 6 2019 | Packaging

When's the last time you had a great cup of coffee in flight? Well, now is the time with [The Barista Cup](#) - a coffee machine in a cup!

Its innovative design allows you to brew fresh coffee within a single cup. To make a cup of coffee with fresh coffee grounds in an instant, simply add hot water, 8 grams of coffee, milk and sugar to taste, secure the lid, and you are good to go. The brewing process takes place within the cup, and its unique design helps eliminate bitterness to deliver a great-tasting coffee each and every time!
