# The Triangular Pizza Slice from Group SOI

By **Melissa Silva** on September, 5 2017 | Packaging

Group SOI is bringing the thin-base pizza slice to the airline and travel industry. Giving passengers the opportunity to enjoy quality pizza just like they would from their favourite pizzeria, Group SOI's unique thin-base pizza is made using extra virgin olive oil, durum and semolina flour, plum tomatoes and mozzarella cheese. The pizza dough is carefully proofed and worked using artisan techniques then baked directly in stone ovens. The result is a traditional pizza slice ready to enjoy at 35,000 feet. The pizza slice can be heated in the oven directly in the box, and is ready to serve in less than 10 minutes. Varieties include: Pizza Margherita, Pizza Vegetariana, Pizza 4 Cheese and Pizza with Italian Salami. Available sizes include: Normal 70/80g and Maxi 135g.
