

# Emirates selects Panasonic Avionics' Astrova and Arc™ for 111 aircraft

(From left) Adel Ahmad Al Redha, Deputy President & Chief Operations Officer, Emirates; Ken Sain, CEO, Panasonic Avionics

[Emirates](#) has selected [Panasonic Avionics](#)' Astrova inflight entertainment solution and Arc™ 3D moving map for the retrofit of 111 aircraft (60 A380s and 51 777s).

Astrova will elevate the inflight entertainment experience for Emirates passengers, offering 4K OLED HDR10+ visuals, immersive Spatial Audio, fast 67W USB-C charging and a modular design that supports future technology upgrades.

Arc adds an engaging 3D 4K moving map, enriching the journey with an immersive flight-tracking experience. This agreement represents a significant milestone in the more than two-decade relationship between Panasonic Avionics and Emirates, and highlights Panasonic's continued role in supporting Emirates' commitment to delivering next-generation inflight experiences.
