

JetBlue brings Autio onboard

Autio will be available on flights equipped with Thales' AVANT inflight entertainment system

[JetBlue](#) has announced a partnership with [Autio](#), the location-based audio story provider, backed by actor Kevin Costner.

Under the deal, passengers flying on a JetBlue aircraft with Thales' AVANT inflight entertainment system, will be able to access more than 250 stories in 29 destinations, covering all 50 US states and the District of Columbia.

The audio vignettes are typically three to five minutes long, with narrations from the likes of Kevin Costner, Phil Jackson and John Lithgow.

Originally developed for road trips, passengers will also be able to listen to over 10,000+ stories corresponding to places along their flight path.

Autio is currently available in English with stories uploaded every week.
