

Media Carrier Solutions and Eurowings partner for Kids Media Box

The Kids Media Box keeps children entertained throughout the journey

[Media Carrier Solutions](#) has partnered with [Eurowings](#) to entertain young passengers inflight with the Kids Media Box. The digital media library includes child-friendly national and international magazines and journals, Pixi books, colouring pages for digital colouring and podcasts for free download. The digital entertainment options can be saved for later if passengers want to read between flights.

The Kids Media Box is an extension of the company's Media Box which is already flying on multiple global airlines. With more than 1,600 newspapers and magazines, travel guides and podcasts in some 40 languages, there are entertainment options for passengers of all ages in the Media Box.

Media Carrier Solutions' IT specialists adapt the software individually to the respective corporate design and the preferred media selection. Airlines can also include their onboard magazines in their offerings.

The entertainment options in the Kids Media Box on Eurowings are available to travellers without a subscription or downloading an app. They are usable cross-platform, on any device.

The Media Box has been around for more than a decade and is used in more than 60 countries around the world. Airlines including those of Lufthansa Group, Singapore Airlines, American Airlines, EVA Air and more offer this digital solution to passengers.
