Onza Distribution acquires six-episode series, "Star Sailors"

[Onza Distribution](#) has announced the acquisition of "Star Sailors," a six-episode period drama produced by David & Goliath (Portugal). The series, brings to life one of the most daring feats of early aviation: the ambitious attempt to cross the widest point of the South Atlantic in the early 20th century.

With an epic scale and a cinematic approach, the six episode (each 45 minutes) series "Star Sailors" follows a group of pioneering aviators driven by courage, discovery, and the desire to push human limits beyond the imaginable. In a world still anchored to the ocean, they chose the sky guided only by instinct, innovation, and the stars.

"'Star Sailors' emerged as an epic journey, made possible by its profound purpose: Inspired by the determination and bravery of aviation's early pioneers, we strongly believed their legacy would illuminate our path to the future. Our collaboration with Onza Distribution promises to elevate this vision, offering an 'extraordinary flight' that invites people worldwide to embark on this adventure with us," said Fernando Vendrell, Producer (David & Goliath).

Blending adventure, drama and historical relevance, "Star Sailors" stands as a premium European fiction project with strong international resonance. The series explores ambition, resilience, and the human desire to conquer the impossible, making it highly appealing for global audiences

"We are thrilled to partner with David & Goliath and present 'Star Sailors' to the international market," said Erika Gómez, Head of Sales at Onza Distribution. "This project reflects our dedication to delivering innovative, high-quality series that captivate audiences worldwide."

"Star Sailors" will join Onza Distribution's 2026 slate across major content markets, where the company will present the title to broadcasters and platforms seeking cinematic historical drama with global potential.
