

Rex taps Stellar for IFE

Stellar helped select the wireless IFE system and worked closely with Rex to ensure a smooth launch of the product

Australia-based Regional Express ([Rex](#)) has partnered with [Stellar Entertainment](#) to launch inflight Wi-Fi and entertainment across its 737 network.

Stellar has been working closely with the domestic carrier on the IFE rollout since late 2020. Besides proposing strategic and customized content solutions, Stellar offered assistance for the selection of the wireless IFE system and worked closely with Rex's appointed OEM to ensure a smooth launch of the IFE product.

"Prior to supplying inflight entertainment content and technical services, Stellar has been working with Rex on PRAM projects and original boarding music," said a [November 24 press release](#).
