

# Stellar Entertainment creates zen in Regional Express cabins

Australia domestic airline [Regional Express](#), better known as Rex, has selected Stellar Entertainment to supply boarding music and PRAMs for the airline's expanding operations.

At the start of March 2021, Rex rolled out its boarding music, a first for the airline, in the form of original compositions crafted in-house by Stellar's own production studio. There are two different contemporary tracks which are intended to help create a comforting and relaxed ambience as the melodies waft through the cabin.

"The pieces conjure images of a serene and blissful environment that are designed to put passengers at ease," said Stellar Entertainment's Creative Director, Brad Power. "These Zen and ethereal vibes transport the listener to their idyllic setting."

As Stellar licenses the music directly to the airline, Rex also saves on royalty fees.
