

ThinKom expands commercial aviation team, appoints Jeff Sare CCO

Jeff Sare, Chief Commercial Officer, ThinKom

ThinKom Solutions, Inc. ([ThinKom](#)) has expanded its inflight connectivity (IFC) leadership by hiring Jeff Sare to the executive team in a new role as Chief Commercial Officer – IFC. In this role, Sare will oversee the sales, marketing and expansion of the ThinAir® antenna product line as it relates to the commercial aviation market. Sare reports to ThinKom CEO Mark Silk in this role.

"I am honoured to join the team that consistently sets the industry standard for performance and reliability in commercial aviation satcom terminals – delivering excellence across all service providers, network operators, spectrums, orbits and airframes," said Sare.

Sare brings a strong history of industry experience to the ThinKom team. He most recently served as President of Intelsat's Commercial Aviation division. Prior to that, he held the role of vice president and Connectivity Solutions business segment leader at Panasonic Avionics. Sare has also held leadership and management positions at Inmarsat, Rockwell Collins and Thales Avionics

"ThinKom delivers industry leading products and services that bring significant sustained value to the airlines, with multi-orbit, multi-constellation, multi-beam, and multi-band solutions," said CEO Mark Silk. "Boosting our commercial aviation team with Jeff opens up new opportunities to grow in this market, ensuring we maintain that success with innovative next-generation products, keeping our customers connected from every orbit to every seat."
