# Wooden earbuds by Inflight Direct

By **Tanya Filippelli** on October, 21 2013 | Tech & Hardware

**Company Name:** Inflight Direct

**Company Location:** Middletown, Rhode Island

**Description of Product:** Unique in appearance, a new class of wooden earbuds and earclips have been introduced by Inflight Direct. The new models feature wooden casing that increases the acoustical quality and reproduces sound similar to home speaker units enclosed in wood materials. The new design allows passengers to further experience the sounds quality from installed or portable IFE systems.
