

Air Caraïbes and French bee select Skyted for onboard and duty free pre-orders

Air Caraïbes and French bee select Skyted

[Skyted](#) has announced that [Air Caraïbes](#) and [French bee](#) have selected Skyted 320 for onboard and duty-free pre-orders, becoming the first airlines to do so.

Skyted enables travelers to use their voice more discreetly in airport lounges, terminals, and shared spaces.

With Skyted 320, travelers can:

- Dictate a message
- Send a voice note
- Interact with an AI assistant
- Take a sensitive call when conditions allow

The product is available for pre-order from June 1 on the new French bee duty-free store and will be available onboard Air Caraïbes and French bee flights from July 1.

"A huge thank you to Daphné Tournadre [Head of Inflight Product and Catering at Frenchbee and Air Caraïbes] and to the teams at Air Caraïbes and French bee for their trust and for being the first to bring this vision onboard," Skyted said in its announcement.
