

ABC International delivers custom 3D cabin branding for Azerbaijan Airlines' first A321neo

The aircraft features premium metallic branding elements as part of a broader fleet program for Azerbaijan Airlines' Airbus A320 and A321neo aircraft

[ABC International](#) has announced its latest project with [Azerbaijan Airlines](#) (AZAL) designing and manufacturing custom 3D cabin branding elements installed onboard the airline's first A321neo aircraft.

The AZAL logo features a premium full-metallic finish with a refined three-dimensional effect, designed to enhance the cabin with "an elegant and distinctive brand presence," according to a recent LinkedIn post from ABC.

The cabin branding elements are part of a broader program delivered by ABC International for Azerbaijan Airlines' A320 and A321neo fleet, creating a refined and consistent visual identity across multiple aircraft.

"We sincerely thank the Azerbaijan Airlines team for their trust and look forward to supporting future milestones together," the company said.
