

ABC International partners with AeroChamp for cabin modification services

ABC International and AeroChamp form strategic partnership

[ABC International Srl](#) and [AeroChamp Aviation](#) have signed a partnership agreement, forming a strategic alliance. This partnership will enable an improved offering for customers, providing a more diversified range of certified, airworthy products and services with greater value, the November 26 press release said.

"This is another important milestone for our company, and we are pleased to partner with AeroChamp whose expertise in cabin interior parts aligns perfectly with our mission to provide high-quality, certified solutions to the aviation industry. This strategic alliance will allow us to offer a broader spectrum of products and services, delivering increased value and options to our customers globally," said Rodolfo Baldascino, CCO, ABC International.

AeroChamp CEO, Dr. Praveen Srivastava, also commented: "Our current capability to manage cabin retrofit programs for the airlines through a network of aircraft interior repair shops across the globe, will gain further strength through this partnership with ABC International. Jointly, we will be able to offer end-to-end cabin retrofit, upgrade and branding solution to the airlines with regulatory compliance and certification."

This strategic alliance brings together the strengths and expertise of ABC International and AeroChamp in cabin interiors, creating a unique offer tailored to meet the needs of global airlines.
