

# Latitude Interiors Group secures agreement with major regional carrier

Latitude Interiors Group will create a fully unified cabin environment where nearly every surface a passenger sees and touches is reimagined

[Latitude Interiors Group](#) has announced the signing of a new long-term agreement with a major regional airline in North America, further solidifying its position as a comprehensive, end-to-end interiors partner for the aviation industry.

Under the agreement, Latitude Interiors Group will provide ongoing repair, refurbishment, and support services across a wide range of aircraft interior components, including sidewalls, overhead bins, dado panels, ceiling panels, galleys, lavatories and monuments.

This milestone contract reflects a growing demand among operators for integrated interior solutions that ensure consistency, efficiency, and an elevated passenger experience across fleets.

In combination with existing programs supported by SkyPaxxx—covering seating and the innovative Sky-Tiles® product line—Latitude Interiors Group now delivers a truly unified cabin solution. For aircraft included under this agreement, nearly every surface a passenger sees and touches will be refurbished or manufactured by a Latitude Interiors Group company.

"This agreement represents a significant step forward in our mission to provide fully integrated cabin interior solutions," said Rick Lockhart, CEO of Latitude Interiors Group. "By bringing together the capabilities of Latitude Aero and SkyPaxxx, we are uniquely positioned to support our customers with unmatched quality, consistency, and operational efficiency."

The agreement comes as airlines continue to prioritize passenger experience while maximizing asset utilization. Latitude Interiors Group's ability to deliver comprehensive, scalable interior solutions positions the company as a trusted partner for airlines seeking both performance and innovation, the

April 2 press release said.

Latitude Interiors Group will be showcasing its full suite of interior capabilities at the Aircraft Interiors Expo (AIX) on April 14 to 16 at booth 5E21 and MRO Americas April 21 to 23 booth 3976.
