

Korean Air to debut Prestige Class cabin interior on 787-10

Korean Air's Prestige Class 2.0

[Korean Air](#) has announced that its 787-10, the largest model of the 787 Dreamliner series, will debut its new Prestige Class cabin interiors.

The airline's 787-10 aircraft is configured with a total of 325 seats, including 36 Prestige Class seats and 289 economy class seats.

Prestige Suites 2.0

The new Prestige Class seats, "Prestige Suites 2.0," are designed to offer passengers a luxurious experience. The design features traditional Korean patterns, including "Jogakbo" patchwork, to showcase Korea's cultural beauty. The interior of the suite features a cream color inspired by Joseon Dynasty porcelain and a gold hue like that of brassware, creating a warm and elegant atmosphere. Shades of charcoal and black with a blue tint complement these lighter colours.

The Prestige Suites 2.0 prioritize passenger privacy. Each seat functions as an independent space, with an open top that provides room for the traveller while maintaining a level of privacy. The seats fully recline to a flat 180 degrees, transforming into a bed. The seat length has been extended to 78 inches, with a seat pitch of 46 inches and a seat width of 21 inches.

Beside the armrest there is a table for cups and small personal items, a personal storage compartment, a wireless phone charger, dual 220V/110V outlets and two high-speed USB-C ports.

The 787-10 Economy Class features seats in a 3-3-3 configuration with woven patterns of bold

colours. The seats offer a recline of up to 120 degrees with headrests adjustable in multiple directions for optimal comfort. The seat pitch is 32 inches and the seat width is 17.2 inches.

High-resolution monitors supporting 4K resolution elevate the IFE experience in both classes. Prestige Class passengers can enjoy 24-inch monitors with Bluetooth audio support, while Economy Class seats feature 13-inch monitors, approximately 2 inches larger than those on other models.

Inflight Wi-Fi service is also available for passengers to stay connected.
