

Air China takes Recaro Business Class seat

Air China is the launch customer for the CL6720 Business Class Seat

[Air China](#) will be the launch customer for the new CL6720 seat by [Recaro](#) with an order of 10 shipsets for its A350 aircraft.

The CL6720 is designed to enhance the travel experience with additional privacy features and increased living space. With the lightweight structure, combined with an efficient seat configuration, the CL6720 can save airlines thousands in fuel costs and help reduce their carbon footprint.

The CL6720 was first unveiled in 2020 and most recently earned a [Special Mention at the 2021 Focus Open Awards](#). The exclusive CL6720 seat customized by Air China is designed from the perspective of passenger demand and experience, and has carried out a huge comfort enhancement and functional optimization designs, incorporating the wisdom of the design teams of both parties.

In addition to the CL6720 Business Class, Air China also selected Recaro Premium Economy seat PL3530 and the Economy Class Seat CL3710 for their new A350.
