

Aviointeriors achieves successful CDR for MYA Economy seats on Cabo Verde Airlines

Aviointeriors' MYA Economy seat

[Aviointeriors](#) has successfully completed the Critical Design Review (CDR) for its MYA Economy Class seat, set to be installed on [Cabo Verde Airlines](#)' 737 fleet.

“Renowned for its versatile and modular design, the MYA seat offers extensive customization options across various configurations, making it ideal for both short and long-haul flights,” Aviointeriors tells *PAX Tech*.

Weighing in at approximately 10 kg per passenger, the seat features a sleek, lightweight design with fewer components, ensuring exceptional comfort and durability even in high-density layouts.

This successful CDR confirms that the MYA seat meets all aviation standards and is available for delivery in a very short lead time. Cabo Verde Airlines' selection highlights its commitment to enhancing passenger comfort with customizable seating solutions from Aviointeriors.
