

# Condor unwraps new passenger experience for its A330neo fleet

Condor's Business Class Prime Seat on its A330neo long-haul aircraft is among a range of new passenger experience enhancements

[Condor](#) has begun offering passengers flying Business Class on its A330neo long-haul aircraft its new Prime Seat. The Prime Seats in the front row of the cabin offer even more space, a full-lie-flat sleeper seats, which can be converted into a 1.99-meter-long flat bed, opposite seating, a 24-inch 4K monitor, with a screen diagonal of over 60 cm and Bluetooth functionality allowing the usage of personal wireless headphones. Additional features include an opposite seating option and a sweet and salty snack basket which is served and remains at the seat throughout the flight. the Prime Seat also comes with a free internet package for unlimited text messaging. Each passenger also has direct access to the aisle, generous storage areas and a cocktail table.

Every seat is also equipped with a USB A/C port or socket.

Condor passengers can also enjoy a completely transformed and extensive in-flight entertainment program, with 250 movies and 260 series free of charge. Added to this are programs from [ARD Plus](#) and the popular animated series *SimsalaGrimm*, which brings classic stories by the Brothers Grimm, Hans Christian Andersen and 1001 Nights to life.

Through the cooperation with ARD Plus, content includes classics such as *Tatort*, *Mord mit Aussicht* and *Polizeiruf 110*." The selection for kids is also bigger than ever, with episodes of *Wissen macht Ah* or *Im Fußballfieber mit der Maus*.

Via "FlyConnect," guests on board the new A330neo can add high-speed broadband Internet and choose from three different data packages.

Further details of Economy cabins will be released in the coming months.
