

RECARO rebrands AAT Composites as RECARO Composites

RECARO Composites, based in Cape Town, South Africa, brings four decades of experience in designing and manufacturing composite components

RECARO Holding has rebranded AAT Composites as [RECARO Composites](#), expanding the group's focus on lightweight composite technologies for seating solutions.

Based in Cape Town, South Africa, RECARO Composites brings 40 years of expertise in the design, development and manufacture of composite components. The rebrand is intended to support innovation across RECARO Aircraft Seating, RECARO Gaming and RECARO Rail, as well as the development of lightweight solutions for emerging sectors such as eVTOL.

"This transformation represents more than a name change – it's a clear signal of our ambition to elevate our composites capabilities for seating applications within the RECARO Group," said Mark Hiller, CEO and Shareholder of RECARO Aircraft Seating and CEO of RECARO Holding. "By aligning with the RECARO brand, we are reinforcing our commitment to innovation, quality, and engineering excellence across all markets we serve."

RECARO said composite technologies can contribute to improved performance, reduced emissions and passenger experience.

"The future of mobility demands lighter, smarter, and more sustainable solutions," added René Dankwerth, Chief Business Development Manager at RECARO Holding. "RECARO Composites is

uniquely positioned to support this transition, particularly in high-growth sectors such as eVTOL, where weight, performance, and innovation are critical.”

The rebrand expands the group’s reach in lightweight composite technologies for seating and next-generation mobility
