

# FlyFit skincare displays at IFSA EXPO

Last updated Friday October 28, 2022

The Hyaluronic Serum is “the King of all moisturizers”

[FlyFit](#) displayed its skincare range at the IFSA expo next week in Long Beach at booth 555. The line includes The Hyaluronic Serum, The Vitamin C Face Cream and The Pillow Mist. The products promote passenger wellness onboard and off.

According to a recent release, The Hyaluronic Serum is “the King of all moisturizers” and should be applied as the base before the FlyFit Vitamin C Face Cream as it acts as a “locking agent” to seal in moisture. Both the serum and the face cream have a combination of lavender and citrus scents which, the release said, makes it appropriate to use either right before sleep or upon waking up to refreshen.

The Pillow Mist is a lavender-scented spray that promote calmness, relaxation and restorative sleep

The Vitamin C Face cream is to be used immediately after the serum. The product is light and hydrating. The Circulation Eye Gel features a peppermint aroma and algae extract used to visibly firm around the eye area. The eye gel also includes Arnica montana flower extract, an ingredient that treats under-eye darkness as well as antioxidant-rich fig fruit extract.

Rounding out the set is The Pillow Mist, a lavender-scented spray that will help promote calmness, relaxation and restorative sleep.
