

## Hunter Amenities partners with Air Canada and Sahajan on Signature Class amenity kit

The Hunter Amenities kit for Air Canada, featuring Sahajan's Ayurvedic, clinically proven skincare products

Canada-based trio [Hunter Amenities](#), [Air Canada](#) and [Sahajan](#) have partnered on a new amenity kit for the flag carrier's Signature Class.

The collaboration combines Sahajan's Ayurvedic, clinically proven skincare products with Hunter Amenities' manufacturing expertise and a comfort-focused design intended to support wellness during travel. The kit also includes a dental kit, socks, earplugs and an eye shade.

“We are proud to partner in a uniquely Canadian collaboration,” Hunter Amenities said in a LinkedIn post.

The company said the program combines its more than 45 years of experience serving hospitality and travel brands with Sahajan's skincare offerings to create a high-performance amenity kit designed to enhance the passenger journey.

"Rooted in Canadian craftsmanship and expertise, this program reflects what's possible when design, manufacturing and wellness come together with a shared vision: helping travelers arrive feeling truly restored," the post concluded.
