

Kaelis and Iberia celebrate the holidays with exclusive salt and pepper set

Holiday salt and pepper set for Iberia by Kaelis

[Iberia](#), in collaboration with [Kaelis](#), has created an exclusive salt and pepper set designed for the Christmas season. Drawing inspiration from Spain's rich artistic heritage, the set reimagines the meninas from Velázquez's celebrated painting, as elegant table accessories.

This special holiday edition features two meninas: one in a radiant gold hue and the other in a festive red.

In addition to its cultural significance, this salt and pepper set reflects Iberia and Kaelis' shared commitment to sustainability, the December 17 press release said. Each piece is crafted from recycled Polypropylene (RPP) to reduce its environmental impact.

The salt and pepper shakes set is exclusively available onboard Iberia flights during the Christmas season.
