

Kaelis collaborates with Qatar Airways on Hajj amenity kits

Kaelis' Hajj amenity kit for Qatar Airways

[Kaelis](#) has designed special Hajj amenity kits for [Qatar Airways](#). The new kits are intended to enrich the spiritual and cultural experience of the airline's Hajj passengers by providing a selection of carefully curated amenities that can be used throughout the Pilgrimage.

The Hajj Pilgrimage, a profound spiritual journey for millions of Muslims globally, holds a special place for Kaelis, the July 11 press release said.

"With deep respect for the religious needs of passengers, the kit was thoughtfully crafted for those undertaking the Hajj, and available to passengers across all cabins in Qatar Airways," said Kaelis.

The kit includes a special prayer mat designed for pilgrims to use during their prayers, a tally counter to help keep track of religious rituals and prayer beads for spiritual practices. It also features a small drawstring pouch for carrying essential items, including anti-slip socks for comfort and hygiene during the pilgrimage, all packed in a reusable black one-strap backpack.

These kits are part of Kaelis' continuous efforts to enhance the passenger experience.
