

Kaelis highlights Business Class amenity kits for Azores Airlines

Kaelis amenity kits for Azores Airlines' Business Class

[Kaelis](#) has unveiled its Business Class amenity kits, designed for [Azores Airlines](#). The pouch collection offers convenience for passengers while prioritizing sustainability. The amenity kit pouches are crafted from canvas, made of natural materials with a low environmental impact, furthered by the durability and longevity of the product.

The geometric design is inspired by the Azores Airline logo; the shades of grey inside the pouch are also based on the airline's colours. Each pouch has a unique colour to match its identity with the different aircraft named Breathe, Wonder, Dream, Magical and Inspire, making this a collector's item.

"This amenity is for you to continue the story, it is all about you, the passenger," Kaelis said in its press release.

Inside the amenity kits, Business Class passengers will find hand-selected items to elevate the inflight experience. These include comfortable socks made from upcycled plastic, tissues and sleep eyeshades.
