
Kaelis launches PPE platform

By **Jane Hobson** on April, 24 2020 | Amenities & Comfort

[Kaelis](#) announced today the launch of a PPE Platform to facilitate the supply-chain process following its customers requests for the supplier's help in creating personal protective equipment.

In the past month, the company has dedicated its full resources built in the last 23 years of managing supply chains worldwide to the fight against COVID-19 by bringing PPE products to those who need them globally.

"As a lean company focused on our commitment to innovate and continuously improve, Kaelis wanted to speed up the supply-chain process as every day counts when saving lives" reads today's press release.

Kaelis joined forces with best-in-class partners [Neurored](#), [S4GConsulting](#), several logistics partners and global payment network [Veem](#) to offer a [salesforce.com](#) based secure and encrypted online platform to its customers.

Corporations, NGOs, healthcare and government institutions can now place, pay and track their orders online directly in the [Kaelis PPE Platform](#). Customers will be able to access the platform by requesting a login account by emailing: fightcovid@kaelisgroup.com.
