

Kaelis reveals self-protective pouch

By **Jane Hobson** on April, 15 2020 | Amenities & Comfort

The Self-Protective Pocket Pouch by Kaelis includes an information leaflet, safety mask, hand sanitizer and alcohol wipes

Kaelis has announced a timely new addition to its amenity kit offerings. The Self-Protective Pocket Pouch includes Personal Protective Equipment (PPE): a mask, gloves, hand sanitizer and alcohol wipes. The pouch can also include more products from Kaelis' range of PPE.

"Kaelis is aware that once the industry starts operating again, new rules will apply in order to assure crew and travellers' safety," reads the press release from the supplier. The Self-Protective Pocket Pouch was created to face these new rules.

The pouch can be customized in shape, color and materials in order to fit the company's identity and can include an information leaflet about how to prevent the spread of the virus. To help move towards a sustainable future, eco-friendly, biodegradable and washable pouches are available.
