

Riyadh Air partners with Disney on kids' amenity kits and onboard entertainment

Riyadh Air has collaborated with global entertainment brand The Walt Disney Company to create memorable experiences for families on board

[Riyadh Air](#) is bringing Disney storytelling onboard through a collection of age-specific children's amenity kits, developed with The Walt Disney Company and [Buzz](#).

The Saudi Arabian carrier's youngest travelers will receive Mickey & Friends-themed kits tailored to infants, children ages three to six and passengers ages seven to 11. Each collection has been designed around comfort, creativity and play, with separate options for short- and long-haul flights.

"Riyadh Air aims to deliver extraordinary experiences for guests of all ages, one that reflects the warmth, care and distinctive hospitality of Riyadh Air and the Kingdom of Saudi Arabia," said Osamah AlNuaier, SVP of Marketing and Corporate Communications. "No matter where in the world they're traveling to, we want to bring joy to guests who are young and young at heart through sharing the magic of Disney storytelling during their onboard experience."

For infants up to age two, the airline will offer a splashproof, insulated carry bag for bottles or essentials, along with a bib, sensory flashcards, a Mickey Mouse plush toy and wet wipes.

Depending on age group, children aged zero to 11 years old traveling on Riyadh Air will receive one of the three beautifully packaged Mickey and Friends-themed amenity kits on short- and long-haul flights

Children ages three to six will receive different kits depending on flight length. The short-haul kit includes an art scroll, pencils and puzzles, while the long-haul version features a plush backpack, magnetic puzzle tin, pop-up colouring scene and collectible Disney bag tag.

For passengers ages seven to 11, Riyadh Air's short-haul activity kit includes an art scroll, coloring pencils and a tabletop game. The long-haul kit features a crossbody bag with a clip-on earphone holder, a "Spin & Play" game spinner, notepad, mini gel pen and collectible Disney charms.

The Disney collaboration will also extend to the inflight dining experience, with children's meals served on colorful Disney character tray liners. The liners feature a non-slip coating, while the accompanying cutlery is sized for young hands.

In addition to the physical kits, Riyadh Air passengers will have access to Disney+ content onboard, including films, series and Originals from Disney, Pixar, Marvel, National Geographic and Hulu.

The initiative is part of Riyadh Air's broader effort to build a differentiated passenger experience as it prepares to establish itself as Saudi Arabia's new national carrier and support the Kingdom's Vision 2030 ambitions.
