

# Turkish Airlines renews travel kits

The Turkish Airlines travel kit

[Turkish Airlines](#) has updated its travel kits for Business Class passengers.

The airline signed an agreement with Coccinelle and Hackett for its travel kits, offered to passengers flying Business Class on long-haul flights of eight hours or more beginning April 29.

The airline breathed new life into its travel kits for women with alluring and elegant designs by Coccinelle, a brand known in the fashion world by its romantic and feminine handbags. As for men, Turkish added the British brand Hackett to its product portfolio.

The comfort sets contain 3D sleep masks, designed to accommodate face contours, breathable socks, ear plugs that balance air pressure, a toothbrush, toothpaste with enhanced fluoride and recyclable packaging, a hair grip, and of course skin care products.

"Every product in the collection signifies luxury, quality and modern lines," reads the press release.

"By offering versatile products of superior quality and alluring designs, Turkish Airlines is carrying signatures of fashion giants and offering a new dimension of luxury to the travel experience," it continues.
