

WK Thomas launches Essentials collection

WK Thomas Quick Serve meal boxes

[WK Thomas](#) (WKT) has announced the launch of its Essentials collection which covers a core range of personal protective equipment (PPE), disposable food packaging and hygiene products.

“COVID-19 has introduced a new dimension to both food service and facilities management”, said David Thompson, Head of Travel. “Hygiene and personal protection are now more important than ever and will remain so for the foreseeable future. Alongside our popular packaging ranges from hot food boxes and containers, to plates, single wrapped cutlery and sealed cutlery packs – as well as our new Quick Serve meal boxes – offering our Essentials Range provides timely and practical support for businesses now operating under different rules.”

Alongside hygienic food packaging and wrapped cutlery, the WK Thomas Essentials range now features PPE as well as convenient and flexible janitorial solutions from cleaning chemicals to paper hygiene products and cloths and wipes.

WKT Essentials Range PPE products include face masks, powder-free vinyl gloves, aprons and hairnets. WKT also stocks anti-bacterial soap, hand sanitizers, a touchless hand sanitizer dispenser station, and a range of signage illustrating social distancing guidelines.

Thompson added: “We have always offered janitorial and cleaning products alongside our core packaging ranges, but these are now more in focus than ever. For example, our Cleanline® range – already becoming popular in the casual dining sector – provides solutions for routine daily use on floors, glass and surfaces as well as specialist heavy duty products such as de-scaler and oven cleaner. The range includes the fast acting Cleanline Ultra Disinfectant, a high performance disinfectant with broad spectrum activity against bacteria and yeast, which is virucidal and effective

against enveloped viruses including Coronavirus (BCoV). As foodservice businesses reopen, wipes, sanitisers, soaps and gloves will be core day to day essentials alongside our food and delivery packaging ranges.”
