

Air Côte d'Ivoire elevates onboard service with Kaelis coat hanger

Kaelis' coat hanger for Air Côte d'Ivoire

[Air Côte d'Ivoire](#) is taking its onboard service to the next level with [Kaelis'](#) coat hanger, designed to make boarding smoother and more efficient for premium passengers. This practical solution helps cabin crew organize garments quickly and efficiently during boarding, bringing more ease and structure to the process.

Thanks to its three-wheel system, the crew can assign seat numbers directly on the hanger, no need to collect boarding passes and far less risk of mix-ups. The result? A faster, more organized boarding experience that allows cabin crew to focus on welcoming passengers and delivering attentive service.

Designed with both durability and style in mind, the hanger features a sleek, premium finish inspired by luxury retail. Its sturdy metal hook ensures stability, while transparent anti-slip pads keep garments securely in place.

Lightweight, easy to handle and built for everyday use, the hanger strikes a balance between functionality and refined design. With this solution, Air Côte d'Ivoire continues to deliver a smooth and elevated travel experience, while equipping its crew with tools that make a real difference onboard.
