

Linstol unveils Leahlani Skincare line

Linstol unveils Leahlani Skincare line

[Linstol](#) has unveiled a beauty line, [Leahlani Skincare](#), featuring products that are handcrafted in Hawaii. The skincare products are made with fresh Hawaiian nectars, potent botanicals and luxurious tropical oils.

The skincare products in the Leahlani Skincare line are blended fresh weekly on the lush North Shore of Kauai Island. Linstol invited customers to experience a “balanced, vibrant complexion and transform [their] skincare routine into a daily beauty ritual they’ll love.”

Leah Klasovsky, dually licensed holistic esthetician and the soul product formulator, said of the product line, “I have had the honour of touching hundreds of precious faces in my practice, each face

told a story of skin longing to be heard and healed. There was a common thread intertwined within all of my clients, everyone was searching for a way to learn to love and care for their skin... that's the foundation of Leahlani Skincare."
