

Lufthansa introduces pre-order meal service

Lufthansa is expanding its Onboard Delight service with a pre-order option

From February 8, 2023, [Lufthansa](#) passengers on every short- and medium-haul flight with a flight time of 60 minutes or more will be able to select and pre-order the high-quality, fresh products as early as 30 days and up to 36 hours before departure. The selection and order can then be conveniently made online via the new Pre-flight Shop and paid for cashless on board.

The pre-order offer exclusively includes fresh food such as bowls, salads, sandwiches and cakes, which were developed together with partners [dean&david](#) and [Dallmayr](#).

Passengers will still be able to choose from the complete, wide range of Onboard Delights, which includes snacks and drinks in addition to the fresh products, even without pre-ordering on board.
