SATS joins Airline Catering Association as full member

This is a special feature from the November 2026 Middle East, Asia & Africa issue of *PAX International*, on page 11.

SATS works closely with its airline partners to create menus that align with the brand vision

PAX International Asia Correspondent Jeremy Clark reports that the Singapore Airport Terminal Services (SATS) Ltd. has joined the Airline Catering Association (ACA) as a full member.

ACA is an international nonprofit organization representing the airline catering industry. Headquartered in Singapore, SATS provides food services to more than 130 international airlines, nearly half of which are based in Asia. SATS Food Solutions operates central kitchens with large-scale food production and distribution capabilities for a variety of cuisines.

Its strategically located network of kitchens in Singapore, China, India, Japan, and Thailand allow the company to bring regional culinary expertise to meals in a variety of different formats, including cook-chill, ambient and frozen.

The company offers full-service carrier catering, utilizing two large-scale airline catering centers that can produce up to 120,000 meals per day.
