
gategroup goes green with plastic-free paper cup

By **Jane Hobson** on December, 2 2019 | Tableware & Serveware

The new cup from gategroup's deSter brand is recyclable and compostable

[gategroup](#) has announced the release of a plastic-free paper cup made with a revolutionary 100% biodegradable liner. Developed by gategroup's [deSter](#) brand for [Transavia](#), the cup is recyclable and compostable since it does not have the plastic liner that other cups require.

The development of the cup comes as part of gategroup's steps to reduce the use of plastics on board. The cup has a plastic-free certification mark.
