

# Air Canada to resume 737 MAX flights

[Air Canada](#) today said that following Transport Canada's (TC) Airworthiness Directive and January 20 and lifting of the existing Notice to Airmen (NOTAM) it would resume 737 MAX commercial operations on February 1.

"We are very confident the nearly two-year regulatory process undertaken by Transport Canada and other regulators worldwide ensures the utmost safety of the Boeing 737 MAX fleet from nose to tail, and from wing to wing. As part of Air Canada's multi-layered approach to reinforcing and enhancing safety, our internal experts have also worked with independent specialists to conduct assessments of the aircraft and our operating procedures," said Captain Murray Strom, Vice President, Flight Operations at Air Canada in today's announcement.

"In addition to implementing all required updates and modifications to the aircraft, Air Canada has gone beyond by equipping its fleet with additional safety-enhancing features that exceed required regulatory standards. These measures are backed by our industry-leading flight operations, the extensive, comprehensive training programs our pilots and maintenance engineers regularly undergo, and our industry-renowned flight data analysis. Customers can therefore be assured that every crew member operating our fleet and the many employee teams working behind the scenes have an unwavering commitment to safety. We look forward to welcoming you onboard," concluded Captain Strom.

The 737 MAX will gradually return to Air Canada's North American route network. All flights are operated in accordance with Air Canada's biosafety protocols, centered around the Air Canada CleanCare+ program.

Beginning Feb. 1, Air Canada's 737 MAX will operate select flights between: Toronto and: Halifax, Montreal, Ottawa, Edmonton, Winnipeg

Air Canada will continue to deploy the fleet on routes that are best suited for its range and capacity.

When browsing and booking flights, customers can determine what aircraft is scheduled by clicking on the "Details" link of the flight they are interested in.

For already booked flights, customers can determine the aircraft they are flying on by retrieving their booking from the "My Bookings" tab on aircanada.com or by tapping the "Trips" button on the Air Canada App, and then clicking on the "Details" link in the Flight Details section.
