

Air France opens beauty treatment center at CDG

Air France's La Première Sisley beauty center

[Air France](#) is now offering beauty treatments at its La Première lounge at Paris-Charles de Gaulle.

The airline is working partnership with [Sisley](#), the French phyto-cosmetology company. Before a day or night flight or between two flights, the “La Première Sisley beauty institute” offers Air France’s La Première users Sisley’s expertise in a range of beauty treatments that can be completed within the amount of time available in the lounge. Available for both men and women, these treatments focusing on skin rehydration, skin tightening and easing away stress and tension are recommended for all skin types and ages.

The La Première Sisley beauty care center is open daily. Each of our La Première customers receives a complimentary 30-minute treatment. A additional facial or body treatment is available starting €100. A boutique offering the entire Sisley product range – skincare, make-up, perfume – and Hair Ritual is also available. Sisley products are also available in the lounge shower cubicles.

Each of the La Première guests receive a complimentary 30-minute beauty care treatment from four express botanical face treatments – The Nutrition Sleep Well Facial Care , The Plumping Glow Black Rose Facial Care, The Pure Skin Purifying Facial Care and The Special Men Facial Care

Our lounge guests also have access to a range of complementary facial and body treatments lasting from one to one and a half hours. This range includes a treatment developed exclusively for Air France – La Première anti jet-lag treatment. This personalized ritual guarantees total relaxation before a flight. All these exceptional rituals have a beneficial effect on the skin and mind, awaken the senses and revitalize.

This new La Première Sisley beauty treatment centre is equipped with a 40 square meter treatment with large mirrors, white Corian furniture decorated with aged bronze details and candles, the décor is minimalist and a haven of tranquillity. On the ceiling, large-embossed shapes representing Ginkgo biloba leaves – a key anti-ageing ingredient in many Sisley products – diffuse soft, ambient lighting creating a more tranquil, relaxing atmosphere during the treatment.
