

Emirates and Air Canada enhance codeshare to include Montréal Flights

Tickets are available via [emirates.com](https://www.emirates.com) and preferred travel agencies

[Emirates](https://www.emirates.com) and [Air Canada](https://www.aircanada.com) have extended their codeshare partnership to cover flights to and from Montréal.

The collaboration allows travellers to seamlessly connect between 11 Canadian cities and Montréal while accessing both carriers' services on a single ticket. This expansion complements their existing network through Toronto, offering convenience and flexibility to leisure, business, and visiting passengers.

Travellers from Canadian cities can smoothly connect to Emirates' services in Montréal or Toronto, allowing journeys to captivating destinations across Asia, Africa, and the Middle East via Dubai's hub.

The partnership also provides Emirates Skywards members with mileage benefits. Baggage transfers are facilitated, except for international travellers arriving in Canada.
