

Emirates relauches Chauffeur-Drive Service at Tokyo-Haneda

Passengers can travel to and from HND in luxury

[Emirates](#) has relaunched its Chauffeur-Drive Service (CDS) for passengers travelling to and from Tokyo Haneda International Airport ([HND](#)) in Business and First Class. The complimentary service offers travellers a comfortable and convenient way to travel to and from the airport in alignment with the airline's onboard experience.

In its December 15 press release, Emirates said that the airlines' First Class and Business Class passengers have the option to choose from a variety of high-end vehicles as part of this service. Options include Mercedes Benz S classes and BMW Full Electric i7 models.

Passengers flying with Emirates' daily service to Haneda, flights EK312 and EK313, can book their vehicle from most parts of Tokyo Metropolitan including all 23 wards of Tokyo, Yokohama, Kawasaki and parts of Chiba and Saitama.

There is a cost for Excess Mileage beyond the served zones. Travellers can book the CDS service through the Manage My Booking on the Emirates website, through Emirates' call centres, or via their travel agent.
